1. Print Hollow Diamond Pattern

```
       *
     *   *
   *       *
  *         *
 *           *
  *         *
   *       *
     *   *
       *
```

2. Find factorial using Recursion with user input value
3. Find the prime numbers between given range (range is given by the user)
